

TUSA Stallholder Price Guide

External Organisations

Previously known as Tasmania University Union (TUU), Tasmanian University Student Association (TUSA) is the peak body of student representation for all University of Tasmania students since 1899.

From fun in the sun and getting social to professional development and finding support, we're here to help students get what they need from their uni experience. We deliver programs and initiatives to support student welfare, engagement, and activation across all 10+ satellite and regional campuses; including the management of social and academic clubs and societies, student support resources, student leadership program, student publication, a professional advocacy service, and on and off campus events and activities.
