**Narrative update:**

I am working with SPURS closely on the organisation of the Paramedicine Graduate Ball for my cohort next year. We are looking to host a democracy sausage sizzle for the week of the TUSA elections and I look forward to handing over to a new Rozelle President for the 2025 calendar and academic year. I am aware that academic appeals continue to be a source of stress for students, and I am continuing to work with several students to ensure that they have all avenues of appeal explained to them. If you need assistance with appeals or anything else Rozelle-related, please do not hesitate to get in touch.
