**Narrative update:**

As the first-year students find their feet, and the second-year students get into their groove, this month has marked a slight decrease in the general 'hecticness' inherent in student leadership roles...

With that being said, this month has still been packed with all sorts of exciting elements!

Throughout March, my focus as Rozelle Campus President centred around building on our new campus sports initiative (the infamous 'PaceMates'), developing critical campaigning skills with the aim of reallocating SSAF funding back into the hands of students, and providing generalised support to students presenting with various issues arising from their studies.

Starting in Week 2, PaceMates, the new campus run/walk club, has made significant progress this month. Our first week saw a total of 12 students, followed by 16 the next week, and 14 in our most recent week (even with the rain!). This is a phenomenal amount of student engagement for an initiative that is so new on a campus as small as ours. In the following months, I will focus on recruiting both first-year and nursing students, as currently it is exclusively-second year paramedicine students attending.

In terms of professional development, this month saw the team undergo substantive campaign training, in order to help achieve our goal of reallocating SSAF funding back into the hands of the students. However, this is a very ambitious and long-term goal so sit tight!

Additionally, a number of students reached out this month requesting assistance with various issues regarding assessments and study resources. If I can't help directly, I can refer you to someone who can!
